

Self-Management Plan

What are the signs that tell me I am becoming unwell (depressed or manic) and need to do something about myself?

What can I do to prevent myself from becoming unwell?

What situations are potential problems for me?

What are some things my friends and/or family may say to me if I am becoming unwell?

How can I respond to what they say?

What strategies/techniques have I found most helpful and would continue to practise?

Thought Management:

Common unhelpful thoughts when my mood is <i>depressed</i>	What I can say to myself in response (balanced thoughts)
Common unhelpful thoughts when my mood is <i>elevated</i>	What I can say to myself in response (balanced thoughts)

What are my support options?
